“Carol Davila” University of Medicine and Pharmacy

Bucharest Medical School has a tradition of one and a half century, being the oldest in Romania. In 1857, Carol Davila, a graduate of medicine in Paris (France) founded the “National School of Medicine and Surgery” which evolved as the Faculty of Medicine, part of the Bucharest University. As a result of the educational reform in 1948, the Institute of Medicine and Pharmacy was independently set up as a State Medical University.

The university has a long tradition. Many professors have not only been masters of medical academic teaching, but also well known scientists: the names of Victor Babes, Ion Cantacuzino, Gheorghe Marinescu, Nicolae Paulescu, Thoma Ionescu, Mina Minovici, Grigore T. Popa, Mihai Ciuca, Ernest Juvara, and last, but not least, **George Emil Palade**, who was awarded the Nobel Prize and was declared the Honorary President of the University

COTROCENI PALACE

The Cotroceni Palace enjoys, when compared with all the other palaces in Bucharest, the most consistent historical background. The nowadays palace was erected in 1888, by order of Prince Carol I, who commissioned Paul Gottereau to build a royal residence, which he successfully did, lending the structure a graceful Classical Venetian style. However, a significant part of the history of the Cotroceni Palace goes back earlier than the construction of the palace proper. The earthquake which shook Bucharest in 1977 affected the Cotroceni Palace too. However, one of the greatest losses the original architectural complex ever suffered refers to the demolition of the historical monastery built by Șerban Cantacuzino. The monastery was pulled down by order of Nicolae Ceaușescu, in 1984, the year when the construction works at the Parliament Palace started in Bucharest. At present, the Cotroceni Palace is the seat of the Romanian presidency, and it has been performing this function since immediately after the 1989 Revolution.

THE NATIONAL MUSEUM OF ART

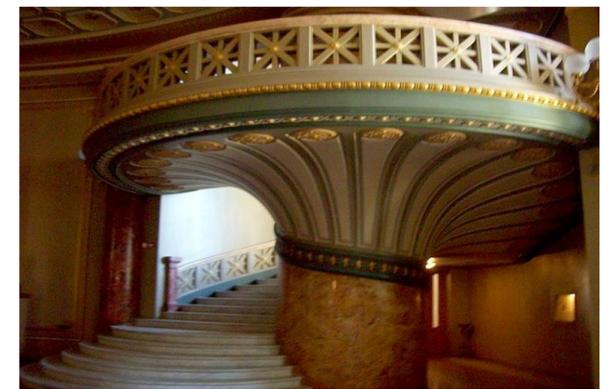

The National Museum of Art of Romania is located in the former Royal Palace in Revolution Square, central Bucharest, completed in 1837.

Maxy, Marcel Ianco, Victor Brauner trace the contribution of Romanian art to the European avant-garde of the 1920s and 1930s.

BRAN CASTLE

The fortress is situated on the border between Transylvania and Wallachia. Commonly known as "Dracula's Castle" (although it is one among several locations linked to the Dracula legend, including Poenari Castle and Hunyad Castle), it is often erroneously referred to as the home of the title character in Bram Stoker's Dracula

After 1918, Transylvania became part of Greater Romania. On December 1st 1920, the citizens of Braşov, through a unanimous decision of the city's council, led by Mayor Karl Schnell, offered the Bran castle to Queen Maria of Romania, who was described in the deed as "the great queen who (...) spreads her blessing everywhere she walked, thus wining, with an irresistible momentum, the hearts of the entire country's population".

The Castle became a favourite residence of Queen Maria, who restored and arranged it to be used as a residence of the royal family.
